Task Force Report: on Ohio Area 44 Alateen Safety and Behavior Requirements (ASBR)

(formerly known as the AMIAS Packet)

We have been working with changes from the Attorney and were planning to present to Spring Assembly. But the WSO recently responded with some additional changes and needs. We have been working hard and have submitted this week for the Attorney's second review. We hope to have the revised ASBR changes to present at Fall AWSC and then acceptance at the Fall Assembly.

Since the project has expanded, we are presenting a motion for additional funds for additional Attorney fees.

Submitted,

Irene B
